- Ball bearing motor

NOTE: Rotation is determined by looking at shaft end. Shaft length is measured from motor face.

All models except D1192 and D1194 have stainless steel shafts.

All models with 1/4" diameter shafts include a shaft bushing.

Products on this page are NOT SUITABLE for unattended equipment unless indicated by ► symbol. See inside back cover for additional information.

See pages 48 through 71 for OEM direct replacement models.
